Communication skills

Team work (gained mostly through my current job at Adata Pro that requires great team work in order to deliver projects on time)

Leadership and great communication skills (gained by working as a teacher, guiding students through their tasks and helping them achieve their goals)

Intercultural skills (gained by being part of a college and a campus with international students in a foreign country, with a high enrichment of intercultural values and a sense of multiculturalism and acceptance for people of different religions and culture)

Great presentation skills (gained in University and through my job as a professor)

Organisation skills

Good organisational skills

Meeting deadlines and time management
